

WOLFRAM
JACKET HIGH VIS

UNI XS-3XL		Colors Safety Yellow with Black Beauty	Wolfram Jacket High Vis is a waterproof and breathable visibility jacket made from durable and robust polyester quality. The jacket features a lining that can be easily removed and put on, making it a versatile garment that can be adjusted in thickness according to needs throughout the year. The outer jacket has an inner pocket and the option for name labeling—nice details even when wearing the garment without the lining. The jacket includes many good features such as a spacious, removable hood with adjustment options, an ID card pocket that can be hidden in the chest pocket when not in use. The side pockets are lined and close with zippers. There are ventilation openings under the arms to release excess heat. Cuffs with thumb holes and Velcro adjustments around the wrists provide warmth and limit water entry. A practical opening in the back allows for easy printing of a company logo or other branding on the jacket. The jacket is made from fluorescent material with wide reflective bands for optimal visibility and protection. Technical description: Main fabric: 100% Polyester, Lining: 100% Polyester, EN ISO 20471:2013, +A1:2016 kl. 3 Reflex, 70mm. Close zippers and buttons before washing the garment in the machine at 40 degrees. Do not iron, tumble dry, dry clean, or bleach. Avoid using fabric softener. Wash with similar colors. The reflective effect will decrease after multiple washes. Maximum 20 washes.
