

KNEPUTER

UNI OZ WR10357 KR. 179	Colors Black Wrks® Knee Pads provide excellent protection and comfort for your knees during work. Their ergonomic design and padded structure offer outstanding cushioning while remaining flexible enough to move naturally with your body. The knee pads are easy to place in the knee pad pockets of work pants, shielding your knees from hard and uneven surfaces. They are ideal for craftsmen, mechanics, and anyone who spends time on their knees during the workday.
CE	Technical description: Material: 30% Polyethylene, 70% EVA. Dimensions: 245 x 170 mm. Thickness: 20 mm. Weight: 70 g per unit, 140 g per set. Standard: EN 14404 Type 2.
	To keep the knee pads in optimal condition: Clean them with a damp cloth and a mild cleaning solution, such as diluted dish soap. Make sure to dry them thoroughly before storing.
