Akita HiVis is made from a comfortable 4-way stretch fabric that provides full freedom of movement. The pants have a relaxed fit with relatively narrow legs and an extended back section with elasticsation. The waistband features elastic, internal adjustment options and belt loops, with two loops—one on each side—that can also function as hammer holders. The pants have plenty of pockets at the front and back, with the hanging pockets removable. These are secured with sturdy zippers and snap buttons to withstand the weight of tools, screws, and nails. Several of the pockets are reinforced on the inside for durability. Reinforced areas at the knees also serve as pockets for kneepads. These high-visibility pants are made from a durable material to withstand wear. They feature two 7 cm wide zebra reflective strips around the ankles. A sturdy and comfortable pair of pants designed to meet the challenges of a busy workday.

Technical description: HiVis cl.2, Body: 90% Polyester, 10% Elastane, Leg: 80% Polyester, 20% Cotton, Knee/bottom: 100% Nylon, CE, EN ISO 20471:2013+A1:2016, EN ISO 13688:2013+A1:2021.

Close zippers and buttons before washing the garment in the machine at 30 degrees. Do not iron, tumble dry, dry clean, or bleach. The effect of the reflective stripes gets reduced after multiple washes. Avoid using fabric softener.
