Bismuth Stretch Pant w/button is made from a 4-way breathable stretch material that provides good freedom of movement. The pants feature a waistband with belt loops for individual adjustment. The button-fitted hanging pockets are made of sturdy nylon material and can be easily removed when the pants need to be washed or when the pockets are not in use. The pockets have multiple loops/compartments, some with zip closures, ensuring that your equipment is always stored securely and is easily accessible. Additionally, the pants have strong and robust fixed pockets in the front and back for storing a knife, measuring tape, and other essential tools. Removable knee pads can be inserted or taken out from the knee compartments as needed. Reinforced material on the knees and the back of the pant legs provides optimal durability. A practical pair of pants suitable for many professions.

Technical description: 90% nylon, 10% elastane, 270 g/m².
