Close zippers and buttons before washing the garment in the machine at 40 degrees. Do not iron, tumble dry, dry clean, or bleach. Avoid using fabric softener. Wash with similar colors. The reflective effect will decrease after multiple washes.

Wolfram Jacket Reflective Black Edition is a waterproof and breathable jacket made from a durable, high-quality polyester. The jacket has a removable lining, making it suitable for year-round wear by easily adjusting the thickness as needed. The outer jacket features 7 cm wide reflective prints around the waist, sleeves, and across the shoulders in 3M quality. A inner pocket and a field for name labeling are nice details even when worn without the lining.

It offers many practical features, including a spacious, removable hood with adjustment options, an ID card pocket that can be hidden in the chest pocket when not in use, and lined side pockets with zippers. Ventilation openings under the arms help release excess heat. The gloves have thumb holes and Velcro adjustments around the wrists to provide warmth and limit water ingress.

A convenient opening at the back makes it easy to add company logos or other branding. This versatile, year-round garment is suitable for many different professions and organizations.

Technical description: Main fabric: 100% Polyester, Lining: 100% Polyester, Front zipper: YKK, WP: 15 000mm, VE: 1000 g/m²/24h, 7 cm wide reflective bands in 3M quality.
